

EMPOWERING STUDENTS TO FACE CHALLENGES OF THE NEW WORLD

MOTHER'S PUBLIC SCHOOL™

Affiliated to CBSE, New Delhi

Unit-1, Bhubaneswar

About us

Mother's Public School™ was established in 1991 as Prakrit, a Pre-school with a strength of about twenty students. Over the years it grew to a Senior Secondary School with a strength of about 2500 students. The primary objective had been to cater to the needs of working mothers and it was the first day-boarding school in the city.

With the motto "Service before Self", education aided with practical learning with a team of dedicated and hardworking staff, the school has produced students for all walks of life.

Preparing students for a sure footing in the global world while instilling values of morality, culture and tradition has been the primary aim. To further this, co-curricular and extracurricular activities are entwined into the curriculum throughout every academic session. Personality outshines all other attributes so as to groom students for the world outside, special soft skills classes are embedded into the curriculum.

Every step of the success story of Mother's Public School has been the vision to excel and cater to the needs of a progressive society.

Mother's Public School™ is situated at a centrally located premier locality of Bhubaneswar. The school is built on modern scientific lines with adequate lighting and ventilation and has spacious classrooms which brings joy, delight and positive energy to every child. It is equipped with some of the modern state of art amenities and infrastructural facilities that supports holistic learning. The personalized attention and the meticulous ways of going about the parental expectations by the staff help set the concordant note for the best of learning environment.

Director's Message

"Somewhere, something incredible is waiting to be known" - Carl Sagan

There is never any point in the life of a person when he can sit back and say - "there is nothing more to learn, I can relax with the comforting thought that the universe around me is an open book, I know it all". Education is not just about the subjects that are learnt and taught in school. First, we all have to be on the same page: children, the teachers and parents have to understand education is not restricted to lessons taught in the classroom from text books. Parents and teachers must encourage children to ask as many questions they can. for it is in wanting to know that will result in actually getting to know.

At Mothers' each child is accepted and appreciated for his/her uniqueness. I am aware of the tremendous opportunity given to us to create your child's educational life. We have the opportunity to instil love of learning that can be nurtured and empowered to grow into something truly beautiful.

It is our school's endeavour to provide children with opportunities to grow holistically and explore the limitless possibilities in their quest for knowledge; where teaching is a pleasure and learning is a joy; where learning and excelling is a passion and culture and values have a pre-eminent place.

"Imagination is more important than knowledge. For knowledge is limited to all we now know and understand, while imagination embraces the entire world, and all there ever will be to know and understand." - Albert Einstein

In my opinion let us all dedicate this year to correct our understanding of what education really means and let us all get benefitted from this understanding. -

Sreejeet Patnaik
Director

"When educating the minds
of our youth, we must
not forget to educate
their hearts" - Dalai Lama
